

Magnolia Manor of Greenville

WEEKLY UPDATE

September 11, 2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 57 residents and 27 staff members test positive for COVID-19. All of our residents have recovered and we no longer have active cases or residents with symptoms. All staff that desired to come back, have returned to work. No further mass testing is planned unless someone presents with symptoms and we will administer tests as necessary and required for the protection and safety of our residents and staff. The last COVID-19 positive test result was staff on August 12th, 2020.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 864-214-9410.

Sincerely,

Keith Paul
Interim Administrator
Magnolia Manor of Greenville
